

< Episode begins with a flashback, back to when everyone was first starting off as the squad. The location can be like a space station or something like that>

O'Brian: To believe, I have my own squad.

Jasper: Hey you deserve it. All of that training and finally reaching the rank you wanted seems only simple that you would get your own squad.

O'Brian: It is like a dream come true though. Hey... do you know who any of these people are?

Jasper: Let me to take a look.

<looks down and laughs a little>

Jasper: Wow, your squad is definitely... different.

O'Brian: Different? Different how?

Jasper: Well you see –coughs- the only word to describe them is different, that is for sure.

O'Brian: Well then read off their names for me. Who are they?

Jasper: Well you have Nigel Collins. Simple class, infantry and rifle, that sort of thing. On the upside, he is British so maybe you can get a good conversation out of him.

O'Brian: Really now. Why is he only a rifleman, is there any story behind that?

Jasper: Uhm... oh man, you are going to laugh at this. He has been labeled as a scaredy cat, it is everywhere in his files.

O'Brian: This cannot be right. If he is so scared, then why is he still here?

Jasper: Who knows, maybe he is stubborn or too scared to quit.

O'Brian: Well if you say he is British, then that must mean my squad has some definite class.

Jasper: Maybe. Next one is Ember Kelen.

O'Brian: That is a girl name right?

Jasper: Looks and sounds like it.

O'Brian: Score.

Jasper: She is an explosive class.

O'Brian: Explosive as in...

Jasper: You know, rocket launchers, things that explode, that kind of thing.

O'Brian: There were so many things wrong with that sentence.

Jasper: Let's not go there.

O'Brian: Right. Well is there a photograph?

Jasper: Nope.

O'Brian: Damn.

Jasper: Hey, I know the explosive class people and if you are getting a girl from that class, then I would watch yourself.

O'Brian: Women are all the same. Say anything wrong and you are bound to get hurt. Yet, say something nice and they are easy to tame like kittens.

Jasper: Uh huh...

O'Brian: That is what my dad always said.

Jasper: Then your dad was a very brace man.

O'Brian: Well I guess I will know more about Kelen when I meet her. Who is next?

Jasper: The last person is –laughs- you are not going to believe this.

O'Brian: What?

Jasper: Remember who we heard about last week, the guy who has not ranked up in a long time?

O'Brian: Yeeeeeah.

Jasper: Well he is yours.

O'Brian: No way.

Jasper: Yes.

O'Brian: I can't have him! He is absolutely terrible. Give me that file, maybe you read it wrong.

<takes file>

O'Brian: No, no, no!

Jasper: Told you. He is in the sniper class, but that means nothing to him. And the fact that he hasn't ranked up in a long time, just says it all.

O'Brian: Why of all people did I have to get him?

Jasper: Hey, maybe he will be good for you.

O'Brian: And why do you say that?

Jasper: He has not ranked up because he has had women being his superior officer. With a guy, maybe that will change for him. Yet...

O'Brian: What?

Jasper: Kelen is superior to him. So, good luck.

O'Brian: Why him of all people... hey, it says you are on my squad as well.

Jasper: Yup, got my transfer orders and all to your squad.

O'Brian: At least I know someone that will be reliable. So you want to head to the loading bay with me?

Jasper: Actually, I am being given an armor ability, so I will have to meet you at the base.

O'Brian: Right, see you then.

Jasper: Bye.

< the camera then flashes forward to the base, at high ground, everyone is arriving one by one >

O'Brian: Man, I am so nervous. My first squad. I just hope they are good.

<O'Brian looks up as Collins is the first to arrive, followed by Kelen>

Collins: And then I said, no you cannot give me that brand of tea it is absolutely disgusting. The leaves get everywhere and it leaves a bad after taste.

Kelen: Uh huh.

Collins: Then the man rudely said...

O'Brian: -coughs-

Collins: Yes, just one moment. He rudely said...

O'Brian: -coughs again-

Collins: What is it...

<Collins turns and sees O'Brian and then takes a step back>

Collins: Well... i...

O'Brian: I am commanding officer. My name is Phillip O'Brian. It is nice to meet the both of you.

Collins: Likewise.

<O'Brian looks at Kelen>

O'Brian: Have anything to say sweetheart?

Kelen: Don't call me that.

O'Brian: I am your commanding officer, I can call you anything. How about...

Kelen: I said no.

O'Brian: Well fine then...

Collins: Hey, are we the only three protecting this base?

O'Brian: No, there is supposed to be one more... but maybe he was transferred somewhere else. That would make this so much better. Well my first orders will be...

Jones: No! Wait for me!

<Jones comes running in and stands next to Kelen. Jones turns to look at Kelen and Kelen turns to look at him>

Jones: Are you... a woman?

Kelen: Yes.

Jones: Fuck.

Kelen: Why you have an issue with women?

Jones: Yes, I find them disgusting and revolting and...

O'Brian: There is definitely going to be future problems with these two. Stop it, the both of you.

<both turn to look at him>

O'Brian: My name is Phillip O'Brian. I am your commanding officer and all three of you will listen to me. This squad will be the best. We will protect this base from anyone that tries to capture it or destroy it. We are soldiers, trained to fight and protect everyone and anyone who needs it. Having years of experience in leadership, I can promise all of you that my leadership skills cannot be matched. We will be superior to all others and we then can accomplish anything!

Collins: That was a very lovely speech. Did you write it yourself?

O'Brian: I most certainly did. Now all of you go explore your quarters and we will meet for lunch.

Jones: Sounds good to me.

<Jones and Collins then leave and Kelen slowly begins to walk, but then O'Brian stops her>

O'Brian: Hey there sexy, how about you come help me break in my new Captain's Quarters!

Kelen: You wish...

<Kelen then leaves and the flashback ends>

< the screen opens to the four of them again, this time the base battle ready, O'Brian is on the back of a turret warthog, Kelen has a rocket launcher in hand, Jones has a sniper rifle and he is in a tower and looking out towards the lake>

Jones: I see something! Oh wait no, it is just the lake.

Collins: Can we please just go and hide like O'Brian had suggested earlier.

Kelen: No.

O'Brian: My heart is beating extremely fast... maybe I am going to die of a heart attack!

Kelen: Just calm the fuck down. If you remember from your speech back when we first met you said all of that stuff. If you are not going to back it up, then you were never meant to be a leader.

<the camera focuses in on O'Brian like he is thinking and then he looks up>

O'Brian: You are right. We should take them head on.

< O'Brian gets out of the turret and gets in the driver seat and then actually drives straight and heads for the lake>

Collins: Wait for us!

< Collins gets in the driver seat of a warthog, followed by Kelen and Jones joining him in the warthog>

Jones: We are seriously going after him?

Collins: Yes, yes we are.

<warthog then goes after the other>

< Valarie appears on screen, holding one of the alien like guns from the previous episode>

Valarie: Perfect.

<the camera then goes to O'Brian who is walking up and down the lake>

O'Brian: If you guys were going to attack me then do it! I am right here! Give me your best shot!

<nothing happens, except for the other three getting out of their warthog and walking up to O'Brian>

Kelen: Why did you come out here?

O'Brian: It only seems simple that they would come here first.

Collins: We discussed this before. No one can come here through some magical door.

Jones: Yeah we did discuss this. And how I could not become a criminal...

O'Brian: Well it does not matter. This is the spot where they are going to attack. I can just feel it.

Kelen: We should head back to the base.

Collins: I agree.

O'Brian: Don't tell me you are scared Kelen.

Kelen: No it's just...

<she then collapses as Valarie shoots her in the back>

Valarie: Payback bitch.

O'Brian: Kelen!

Collins: You!

Jones: Her! Wait, we knew she was here, why are we so surprised... oh right. You shot Kelen!

Valarie: And there is going to be more shooting where that comes from.

<Valarie walks forward aiming to shoot at the rest of them, but then there is a rumbling>

Collins: What is that?

O'Brian: I don't know.

<the earth keeps rumbling and then stops. An invisible door appears and then two figures step out of it. The camera turns and looks at them from behind, obscured and showing not what they look like at all>

Valarie: Fuck...

< end season >
